Six papers, many possibilities

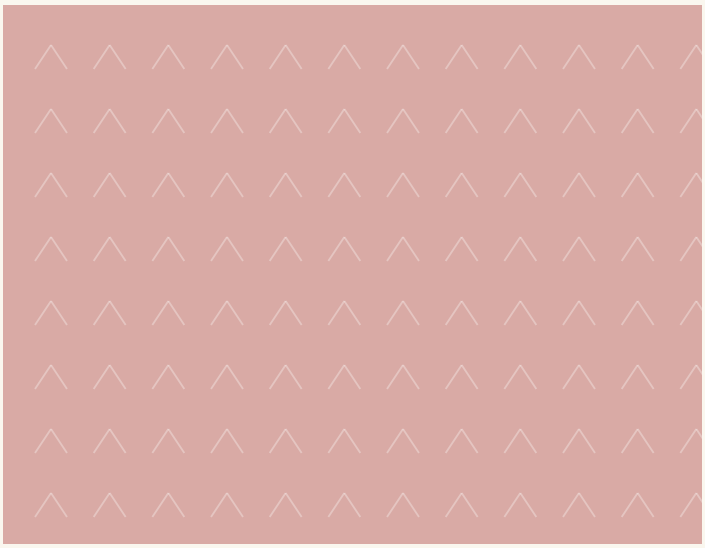

Cut or tear the panels into your own shapes. These are small collage papers, not full-page backgrounds.

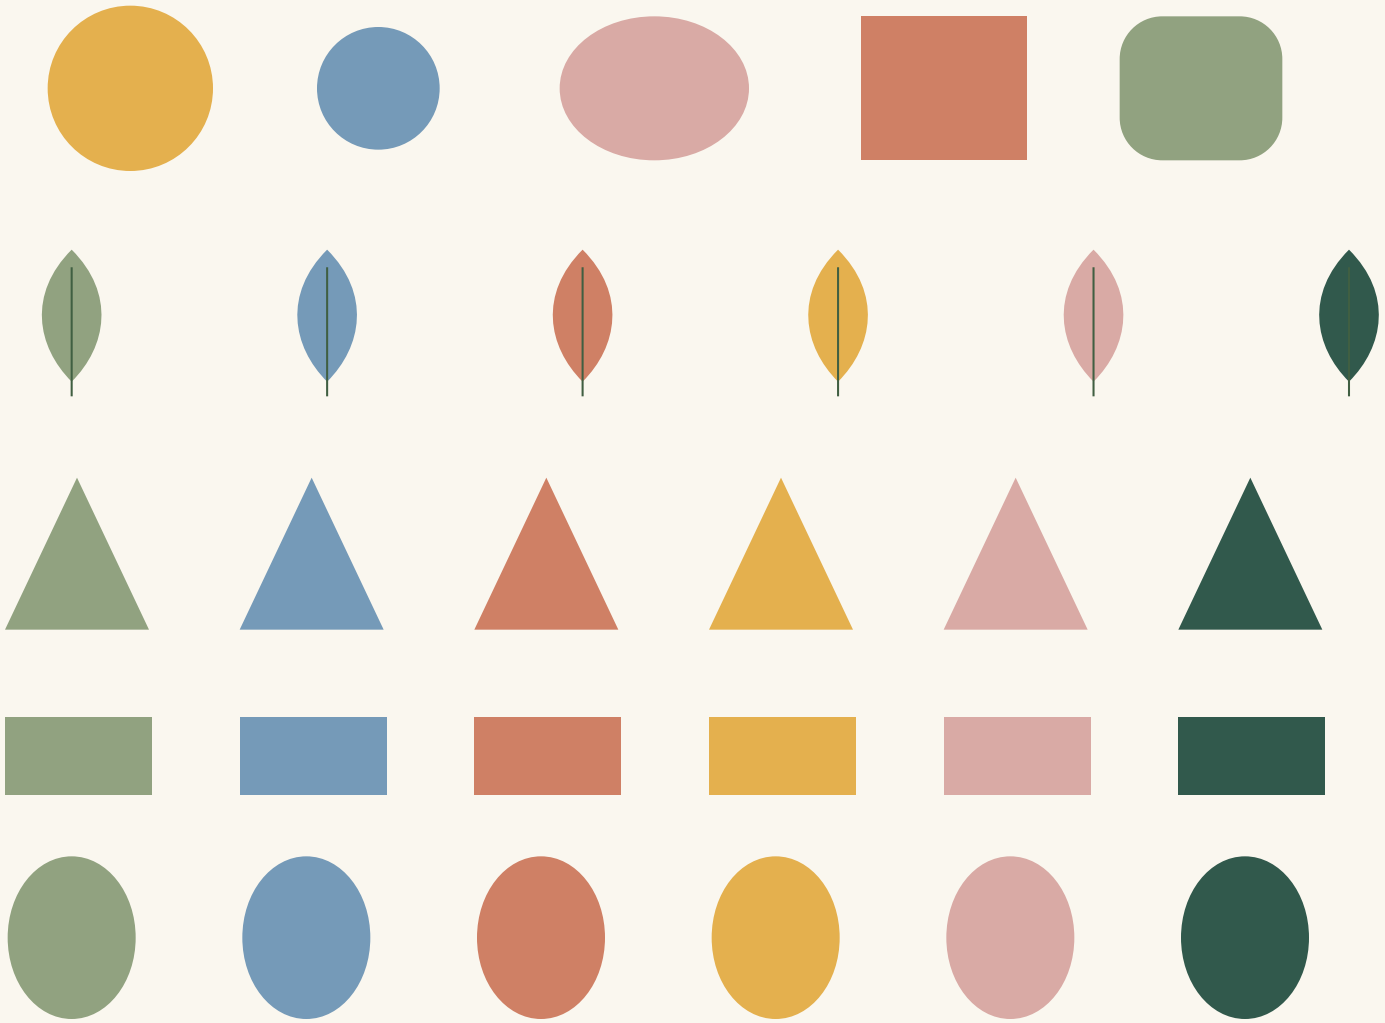

Shapes to mix and layer

Cut around the colored shapes. Combine, trim, overlap or trace them onto your own paper.

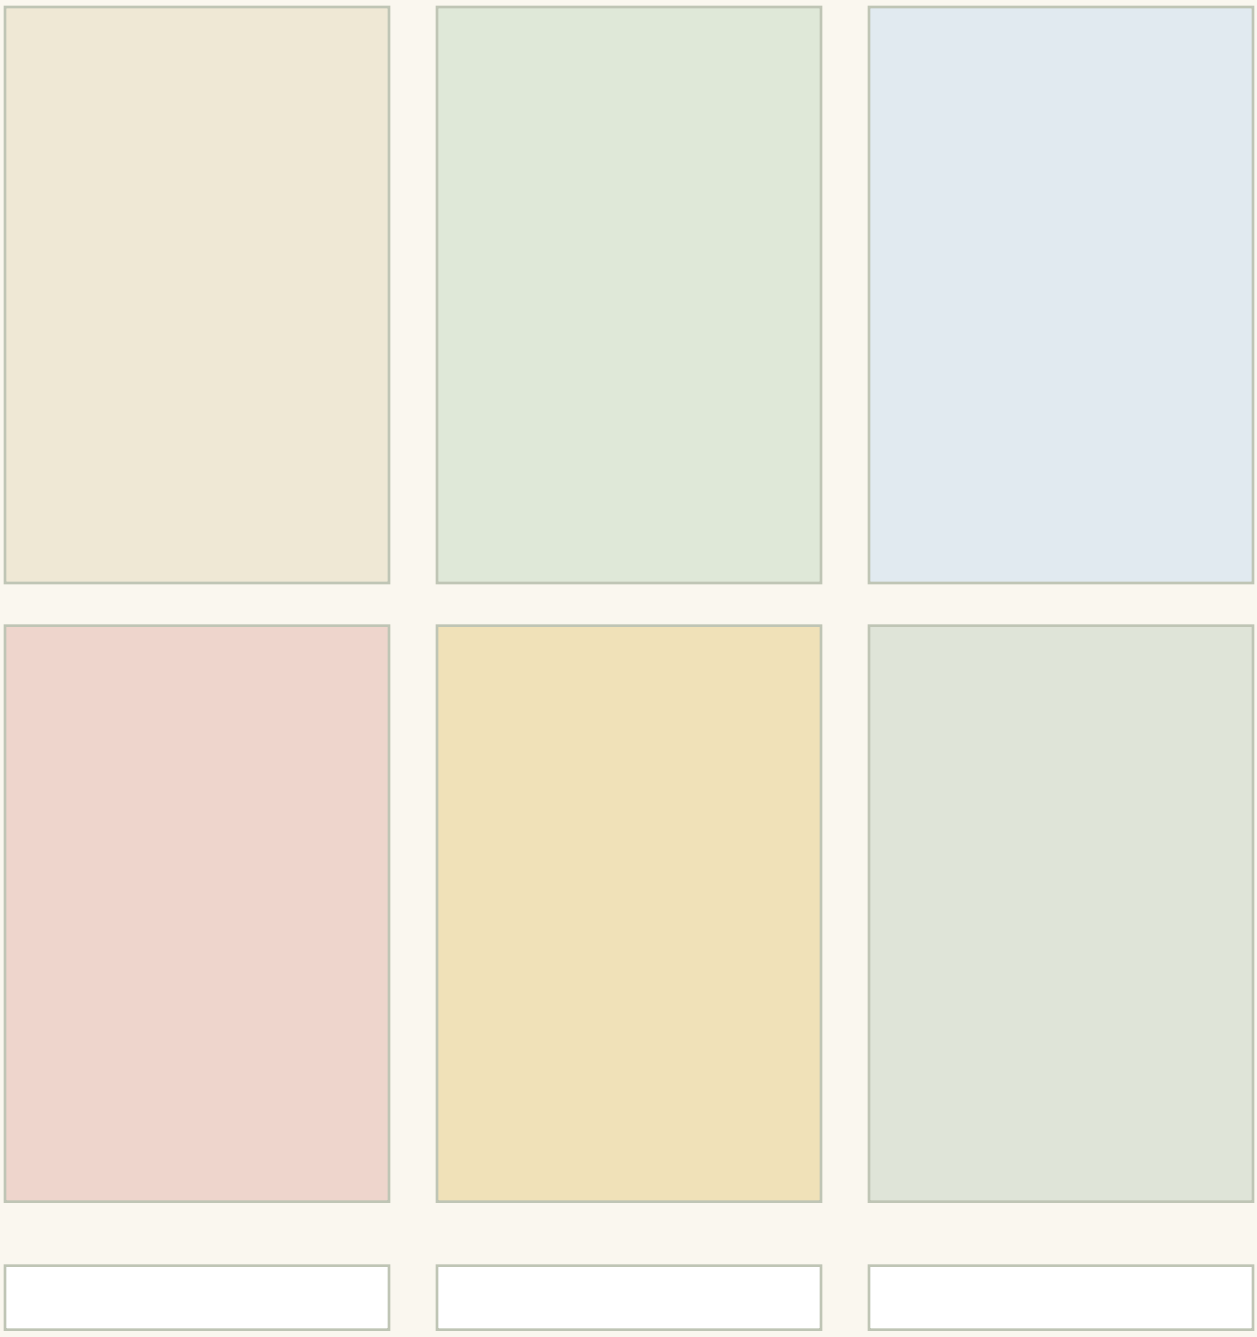

Try: leaves + triangles = birds; circles + ovals = flowers;
rectangles + a triangle = a little house. Keep the offcuts.

Print at 100% / Actual Size. Colors vary by printer and paper.

5 cm check line

Small foundations and word labels

Six 2 x 3 inch panels at Actual Size. Use as mini collage bases or cut them into extra scraps.

Blank labels: add your own word after the adhesive is dry.

Use thin paper for layers. If you want a firm base, print page 3 on suitable cardstock.

Personal journals and gifts only. The illustrated finished artworks are not cutouts in this pack.
