Mushroom drawing

Seven steps, one consistent drawing. Use pencil first, then a fine pen.

1 / FOLLOW THE SHAPES

1. Draw a dome

Start with one broad, soft arch.

2. Close the cap with an oval

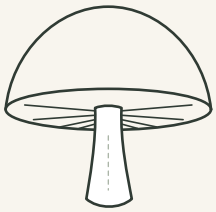

Keep the oval shallow and level.

3. Add the stem

Join inside the oval; hide the rim.

4. Add short gill lines

Stop each line at the stem area.

5. Place a few cap spots

Spots are optional decoration.

6. Ink and erase the guide

Keep the outline; remove pale guides.

7. Color and add a ground line

Use light color so lines stay clear.

Trace, then draw it again

Use the pale drawing as a guide. Keep your own copy loose and simple.

2 / TRACE + COPY

Trace the finished drawing

Make room for a small drawing

Try a journal placement. Keep most of each panel open for your words.

3 / JOURNAL PRACTICE

1. A small woodland corner

2. One decorated keepsake card

3. Two mushrooms with different cap sizes
